You Don't Want to Kill This Town!

If you want to kill the prosperity of this town, if you want to make it financially hard up, IF YOU WANT TO BUST IT, just keep right on sending your money to outside firms and especially to the mail order man.

If you want to make Christmas a mockery in this town, if you want to contribute your share toward pauperizing the business interests of this community, just keep right on sending your money to other places and you will succeed,

If you want to decrease the value of your town property or of your farm, if you want to make local conditions such that no one would risk buying your property, jusk keep right on patronising mail order men and other foreign concerns and you will wipe out your own accumulations of years.

But If you don't want to do these things-if you are in reality what you profess to be, a good citizen-BUY IT AT HOME THIS CHRISTMAS, and KEEP PROSPERITY IN

Every day good citizens are telling us they are convinced that it is to their own interest to buy as much as possible this Christmas from our own merchants, because they realize that the profits from the sales must be kept at home. We think that at heart you, too, are a good citizen, if you will only stop to consider what a blow you are giving your home town when you send your money to outside sources. Why don't you tell us that YOU are going to BUY IT AT HOME this Christmas if it is possible to get it here?

Of course if you must have something that is not sold in this town then you are excusable if you buy it elsewhere. But you can buy most anything you want right here in this town from our own merchants, from people who are your sincere friends and whose heavy taxes on their business enterprises make your taxes that much lighter.

We appeal to every citizen in this community-WE AP. PEAL TO YOU-to help keep prosperity in OUR OWN town by buying your Christmas goods from OUR OWN business

We are appealing to your better nature-to your loyalty -to your own interests-when we ask you to join us in KEEPING PROSPERITY AT HOME, where each and every one of us may enjoy it blessings,

We are firm in the conviction that you will do this, because we believe you ARE a good citizen and are more than willing to prove yourself one of our BEST citizens by doing that which you KNOW to be to the best interest of the whole community as well as to yourself, and especially when it will not cost you an extra cent.

She Knows What She Wants

The well informed housekeeper, finsists upon using only a baking powder which is made of cream of tartar. She might read in an advertisement or be told that alum and lime phosphate, which are used as inferior substitutes in cheap baking powders, were all' right in the quantities used but she would not buy them or permit! them to enter her kitchen. Why?

Because she knows that cream . of tartar has always been accepted as the most wholesome agent, with soda, for raising cake and bisbuit, and she wants a baking powder made of cream of tartara Like Royal.

This conclusion is the result of unconscious absorption, either her own or her mother's, of the opinions of the highest authorities on hygiene and home cooking.

The prudent housekeeper, when she uses baking powder, reads the names of the ingredients printed on the label. She knows what she

A TRUMPET CALL

If you can't raise tobacco, raise hell!

How many years have elapsed since Augustus Owsley Stanley made a name for himself volunteering pregnant advice to the tobacco-raisers, not only of the Stemming District-more or less his own bailiwick-but of the Dark Tobacco Belt at large?

How long ago is it since his perferved denunciations and lurid lambasting coincided so neatly with those outbreaks of ruffianism and riot that brought disgrace on the Commonwealth from which it has never yet recovered?

We recall the outbreaks in Crittenden and Christian Counties; the terrorism in Henderson and Daviess; the unrest and insecurity in Union!

And we recall, also, the evident friendliness of the then Representative of the Second Congressional District and the present candidate for Governor, Augustus Owsley Stanley!

Barns were burned; men were whipped; women were not spared; plant beds were ruined; threatening letters were a daily happening; the Night Rider scarcely took pains to conceal his identity.

Law and order became a mockery. There was no protection for the home beyond such a shotgun might furnish. For property, there was even less. The authorities, for the most part concerned only with their offices, proved weak and indifferent when not positively of a mind to justify the scandalous condition.

Like Col. Stanley, they were disposed to condone the violent remedy. They excused it by blaming the tobacco buyer, the wicked, rapacious and prosperous tobacco buyer. What were the laws of supply and damand to them? They were enjoying an orgic without thought of that succeeding headache that was to discredit the State and bring rum and desolation to what had been a smiling and happy country.

If you can't raise tobacco, raise hell! The man who spoke those words, the man whose conduct bore them out, aspires to the honorable, the responsible po-

sition of Chief Magistrate of the Commonwealth. The man who went up and down that end of the State, lashing the aroused passion into fury uncontrollable; arousing the dormant devils of capidity, jealousy and revenge; marking out a class for ostracism, for boycotting if not for personal punishment; damning peaceful citizens and bringing the blight of an enforced sloth upon the land, holds the Democratic nomination for Governor of Kentucky.

Is he other than he was?

Has he gained, in poise, in judgment, in ability or in willingness to govern himself?

Has the demagog turned statesman?

Has there come a change over this shifty politician? The office of Governor is much more than one of honor and pre-eminence. It is one of anxious responsibility; of conscientions performance; of strict accountability to all the people; of leadership that shall not be merely partisan.

It is not provided as an agency to pay old debts or to pay off old grudges.

It is not provided merely to throw a man into high relief. Neither is it well that he efface himself.

Kentucky wants a Governor whose conduct and whose policy shall be sound, just, constructive. She wants an administrator who administers with prudence, with energy and with scrapulous fair dealing.

She wants a man-who will face a storm fearlessly, not raise one and go with one.

She wants a statesman of serious purpose, not a professional seeker after office, a blustering and selfish mounts-

If you can't raise tobacco, raise hell!

Great words with which to win the goodwill of the voters. If you can't raise tobacco, raise hell!

Noble words of help and of uplift to one's own people.

If you can't raise tobacco, raise hell! What a frumpet call to all the forces of disorder, dismay

and degredation. What a certificate of fitness for one who, ungovernable

h'mself, would be Governor of the Commonwealth! (Editorial in Louisville Herald.)

The Program Committee of the Woman's Missionary Society of the Christian Church met Thursday afternoon with Mrs. Ernest Eastwood on Railroad Street to prepare the program for the November meeting. As a pleasant surprise to the Chairman of the Committee Mrs. Brazelton, who is soon to leave Earlington, Mrs. Eastwood had also invited the officers of the Society for the afternoon. After the program was arranged the hostess served a delight-

School Book Graft

A Republican Commission in 1910 made a contract for school books and the school children were furnished books at the following prices:

Republican Administration

Primer10	Cents
First Reader12	
Second Reader20	Cents
Third Reader	Cents

In 1914 a Commission composed entirely of Democrats made the present contract, whereby you are compelled to pay the following prices for books:

Democratic Administration

Primer	 25	Cent
First Reader	 25	Cent
Second Reader	 27	Cent
Third Reader	 38	Cent
Speller		

If you want to exchange an old book for a new one you now pay twice as much as you did under a Republican administration.

How much does this mean to you? Is it right to make you pay this additional sum for books?

If you want to get school books for the lowest price, vote the Republican ticket November 2nd, and ask your neighbor to do the same.
